

INVITED SESSION SUMMARY

Title of Session:

Metaheuristics and multiagent models for flexible manufacturing systems

Name, Title and Affiliation of Chair:

Dr. Housseem Eddine Nouri, ENSI, Université de la Manouba

Dr. Hassen Gharbi, ENSI, Université de la Manouba

Details of Session (including aim and scope):

Approximate methods and distributed artificial intelligence techniques continue to be subjects of several research papers in different fields such as in the industrial engineering, the flexible manufacturing systems and the supply chain management. This special session gives the opportunity for researchers to present their last works for the cited fields based on metaheuristics and multiagent models.

Scopes :

- Multiagent systems
- Metaheuristics
- Scheduling
- Supply chain management
- Timetabling
- Assignment
- Distributed problem solving
- Combinatorial optimization

Email & Contact Details:

NAME : Housseem Eddine Nouri

TITLE : Dr.

AFFILIATION: ENSI, Université de la Manouba

EMAIL: houssemeddine.nouri@gmail.com, houssemeddine.nouri@ensi-uma.tn

NAME : Hassen Gharbi

TITLE : Dr.

AFFILIATION: ENSI, Université de la Manouba

EMAIL: hassen.gharbi@ensi-uma.tn
